Today's busy clinicians need quality CME/CE education that fits into their schedule. **AudioDigest Platinum**'s unique audio delivery allows clinicians to learn anytime, anywhere—even during their commute. **AudioDigest** records lectures from over 350 meetings and carefully selects and edits the contents that are going to help your clinicians improve patient care while earning CME/CE and MOC! With new content from 16 specialties published monthly, there's always content of interest for everyone.

**Benefits of AudioDigest Platinum:**

- Highly relevant content is selected to help clinicians stay up to date with clinical practice and improve patient care
- Our editors listen to thousands of presentations each year—and only publish the best 10% so you are always on the cutting edge
- Independent content is always unbiased—never industry supported
- Listen to lectures anytime, anywhere with the Audio Digest Mobile app. Available on Apple or Android devices
- Over 5,000 accredited lectures (plus historical content): Accredited for MDs, NPs, PAs, RNs, CRNAs, Dieticians and Certified Diabetes Educators
- 150 ABIM MOC points from Internal Medicine lectures available plus relevant MOC content from selected specialties
- Each user can set up an individual profile and username/password for a customized education experience
- Track your progress against specialty and state specific requirements
- Recommendations and search results based on each clinician's individual scope of practice and areas of interest
- Create custom playlists, including auto-loading playlists—search for a topic once and Audio Digest will automatically add relevant content to your playlist when published

THE PLATINUM EXPERIENCE:

State-of-the-art Media Player—Experience content through a host of Platinum features including faceted search to add content and the ability to create automated playlists and stream or download lectures for convenient offline access. Audio controls allow users to rewind 30 seconds or listen at 1.5x speed to get the most out of their content. Platinum is available online and on both the iOS® and Android™ platforms, synchronizing each individual’s progress across devices so users can pick up where they left off.

Personal Recommendations—Platinum streamlines the search process by serving up recommendations based on an individual’s profile—individual specialty, scope of practice, interests, or particular CME/CE requirement.

Credit Tracker—AudioDigest is the second largest provider of CME/CE content in the United States with over 1.3M credits issued annually. With Platinum, you can easily track your credit status and quickly find activities to complete your state(s) CME/CE requirements.

Personal Library—The library allows you to easily add lectures for quick access while keeping you current on your progress on each individual lecture. Use your library to manage your content and add, delete, and make playlists.

Faceted Search—Our faceted search allows you to efficiently find the content you need and store it in your personal library. You can even save your searches as a custom playlist.

Playlists—You can quickly create a custom playlist to manage your content. Create a playlist to group your content by topic and listen to several courses back to back. An Autoload playlist automatically adds new content as it becomes available, ensuring that you keep up to date with the latest material of interest to you.
