Each of these 62 books from premier publisher, Lippincott Williams & Wilkins (LWW), have been recognized as a Doody’s Essential Title. These titles are recommended as essential purchases for institutions—especially those with limited budgets—seeking to expand their medical resource portfolio.

What’s a Doody’s Essential Title?
Doody’s Review Services™ is a world leader in providing authoritative and expert quality assessments of medical, nursing, and allied health books. Recommendations for Essential Titles are made by multiple librarians with subject area expertise, who select and score in that area of specialty. Recommendations are made independently of one another, based on the librarian’s experience with their respective institutions. Designations are specialty specific, and each Essential Title is also considered a Doody’s Core Title™—a truly must-have resource.
