Online Books from Joanna Briggs Institute

Healthcare professionals and institutions strive to provide the highest quality care to their patients based on the latest evidence from research, clinician expertise, and patient preference.

Joanna Briggs Institute (JBI)—one of the world’s leading evidence-based practice organizations—has developed an evidence-based practice model that is considered a benchmark in the global healthcare industry.

Using the JBI model, healthcare professionals can assess the world’s best available evidence, applying a strict methodology to evaluate for relevancy, accuracy, and scientific credibility; synthesize and transfer the evidence; then use it to provide the best possible patient care.

Assess the Evidence with the Lippincott/JBI Book Collection on Ovid

This unique book collection, published by Lippincott and available only on Ovid®, enables clinicians, managers, and other healthcare professionals to:

- Understand the JBI model of evidence-based healthcare
- Evaluate qualitative and quantitative research
- Appraise evidence from intervention and diagnostic test accuracy studies
- Learn ways to minimize risks from adverse events

- Access premium sources of evidence-based healthcare information from Lippincott and JBI
- Discover an innovative methodology for assessing clinical evidence and translating that evidence into clinical practice
- Take a detailed and comprehensive look at a leading organization’s approach to evidence-based healthcare
- Search these books simultaneously with other evidence-based resources using just a single search query on Ovid®
- Select individual titles or a cost-effective collection containing the complete set of these books
Online Books from JBI

A Comparison of Meta-Aggregation and Meta-Ethnography as Qualitative Review Methods
Explores the implications of particular approaches on the findings of qualitative reviews

A Mixed Methods Approach to Evidence Synthesis
Fosters understanding of the processes involved in conducting a systematic review from differently designed studies

CAN-Implement®: Planning for Best-Practice Implementation
Teaches how to implement clinical practice guidelines into specific healthcare practices using CAN-Implement®

Clinical Wisdom and Evidence-Based Healthcare
Discusses how to facilitate clinical wisdom in education and practice, which leads to improved patient outcomes

Critically Appraising Evidence for Healthcare
Teaches readers how to critically appraise all types of research

Guideline Adaptation: Conducting Systematic, Exhaustive, and Reproducible Searches
Learn how to develop clinical practice guidelines and complete reproducible searches that can be used in guideline adaption

Implementing Evidence Using an Action Research Framework
An introductory guide to action research in translational health science that discusses philosophical underpinnings and methods

International Collaboration in Translational Health Science
Examines the issues related to international collaboration and translational science

Knowledge Translation in Healthcare
Provides a constructed step-by-step journey through knowledge translation and how to bring evidence to practice

Public Engagement in Translating Knowledge to Action
Reviews existing models of engagement, highlights best practices, and more

Stakeholder Engagement: The Role of Tacit Knowledge and Value Statements in Translation Science
Guidance on how to engage stakeholders in the translational research process to integrate knowledge into practice and policy

Statistics for Systematic Review Authors
Goes through the proper statistical method to verify the validity and applicability of your systematic review

Synthesizing Descriptive Evidence
Teaches readers to critically appraise descriptive evidence—case reports, surveillance studies, etc.—for validity and applicability

Synthesizing Economic Evidence
Presents step-by-step methodological guidance for systematic reviews of economic evidence

Synthesizing Evidence from Narrative, Text, and Opinion
Explores different sources of knowledge for clinical decision-making

Synthesizing Evidence of Diagnostic Accuracy
Examines the methodological basis for the synthesis of diagnostic test accuracy data

Synthesizing Evidence of Harm
Teaches how to appraise the chance of harm or adverse outcomes

Synthesizing Evidence of Risk
Describes how the synthesis of evidence related to risk is becoming increasingly important and relevant

Synthesizing Qualitative Evidence
Describes the processes involved in rigorous synthesizing of qualitative evidence

Synthesizing Quantitative Evidence
Provides an overview to new reviewers and students on the fundamentals of synthesis

The Historical Emergence of Qualitative Synthesis
Reviews the degree to which qualitative systematic review is valued within the domain of evidence-based practice

The Synthesis of Prevalence and Incidence Data
Comprehensive guidance on conducting systematic reviews on prevalence and incidence data

Translation Science and The JBI Model of Evidence-Based Healthcare
Examines the translational research process in relation to the JBI Model of Evidence-Based Healthcare

Turning Knowledge into Action: Practical Guidance on How to Do Integrated Knowledge Transition Research
Teaches how to translate research into practice through the integration of knowledge translation

These books are available à la carte or as part of a cost-effective collection.

Also Available from JBI:

Burn Trauma Rehabilitation: Allied Health Practice Guidelines
Produced in collaboration between the Australian & New Zealand Burn Association and the Joanna Briggs Institute. This book provides burn, trauma unit, and non-burn focused allied healthcare providers with a resource to facilitate rehabilitation with a focus on quality of life and return to participation after burn injury for the burn patient.

*This title is not included in the Lippincott/JBI Book Collection.
