- Neurology & Neurosciences
- Nursing & Allied Health
- Pharmacy & Pharmacology
- Philosophy & Religion
- Psychology & Psychiatry
- Social Sciences & the Humanities
- Technical Sciences
- Veterinary Medicine
- Zoology

Ovid’s flagship research platform is the leading choice globally among clinicians, researchers, educators and students in the medical, scientific and academic fields. Ovid delivers a repository of thousands of full text and database resources in a single integrated solution. Its unique tools and features are designed to maximise search precision and efficiency and simplify the speed of analysis and workflow – all in a simple integrated and easy-to-use system helping you spend less time conducting research and more time analysing and making decisions.

Ovid has become vital to hundreds of thousands of researchers, practitioners, information managers, librarians and students all over the world as they seek information to make new discoveries, enhance ongoing research and improve patient care.

Whether you are managing large-scale documents, demanding projects or making time-sensitive, evidence-based decisions, Ovid delivers the flexibility, speed and productivity you are looking for.
Search the Way You Like
Users can quickly select their preferred search mode, including: Basic Search, Find Citation, Search Tools, Search Fields, Multi-Field Search and Advanced Search.

Add Value to Your Full Text Search
Browse and search thousands of Multimedia assets including videos, audio podcasts and images.

OvidOpenAccess lets you view, search and access high-quality, peer-reviewed content from Medknow Publications and PubMed Central - leading international publishers of Open Access content.

Work Productivity Tools
Quickly identify how you conducted your search with Search History, use Search Limits to bring greater focus to your searches and easily attach Annotations to a citation or search result.

Results can be instantly viewed and sorted according to multiple criteria with Search Results Tools and Functionality. Citation Manager Options allow to select a preferred style when viewing, printing, or exporting to your citation manager.

Content Alerting
Automatically receive saved searched via email or RSS with AutoAlerts whenever new articles matching your search criteria become available. Ovid’s eTOCs track and alert users to newly loaded journal issues.

Conduct More of Your Research Work within Ovid
MyWorkspace combines search, discovery, document and research management into a single online destination, dramatically increasing your online work productivity.

OvidMD®

The first clinical tool from Ovid that provides quick answers to physicians’ questions based on relevant, current full-text content from Ovid. Designed from a clinical, evidence-based perspective, OvidMD ensures that results are meaningful to a practising physician.

- Simply ask a clinical question. OvidMD searches Ovid MEDLINE®, evidence-based guidelines, and all of your institution’s key clinical full-text journals, books and databases – all in a single search
- Type Ahead That Thinks Ahead. Suggests possible search terms as soon as you begin typing and makes exploring alternative, related topics quick and easy.
- Clinically-optimized search results. Developed for—and tested by—physicians, OvidMD’s intuitive search immediately returns relevant results
- Clinical Focus Navigators. Help narrow content by clinical need (Review Articles, Clinical Trials, Diagnosis, Treatment, Screening and Prevention, and Prognosis) as well as by type and date.

With OvidMD you can access:
- UpToDate® synoptic, point-of-care content together with Ovid’s full-text and bibliographic content in the same easy-to-use interface (requires subscriptions to both products)
- CME credits - U.S. based physicians have the ability to obtain continuing medical education credits (AMA PRA Category 1 Credit™) for improving the outcome of patient care through researching a clinical topic in OvidMD
- Tools that physicians want. Downloadable patient information handouts from UpToDate® and RelayHealth (a division of McKesson Technologies, Inc.), an exportable image library, dozens of medical calculators, and more
- Improved UpToDate® search results! - search results from UpToDate® displayed in OvidMD are in real time and the exact same order as UpToDate®

- more than 500 hours of content!
Premium Journals from Lippincott

Innovating reader engagement and access to premium content

Lippincott is a leading international publisher and partner of premier medical, nursing and health professionals and associations, publishing the most current and influential research in more than 20 specialty areas including:

- Anesthesiology
- Cardiology
- Orthopaedics
- Neurology
- Nursing
- Obstetrics and Gynecology
- Radiology
- Internal Medicine
- Pathology
- Infectious Disease

Lippincott publishing solutions create value for society members and subscribers by putting research into the hands of healthcare professionals when they need access to advance patient care, support practice change, and inform clinical decision making.

Lippincott has been at the forefront of the publishing innovation at every turn from print to online and digital channels to transforming how the content is distributed, accessed, and consumed.

Lippincott is leading the digital evolution of medical journals for societies, authors and advertisers, helping them to create compelling reader and audience engagement opportunities with multimedia and linked content.

LWW High Impact Collection

Exclusive, cost-effective access to over 60 high impact journals in medicine and healthcare

The LWW High Impact Collection gives you a simple, cost-effective way to expand your electronic journal holdings. This unique collection of top-ranked journals published by Lippincott provides an essential base of highly cited information that is perfectly tailored to your most specific research needs giving you access to a diverse package of high-quality full-text resources and core, must-have clinical titles.

Many of the journals in the LWW High Impact Collection are official titles of prestigious societies and associations and none of the journals are under any embargoes. Leading expert editorial boards and a focus on content currency are fundamental features of this collection.
In the LWW High Impact Collection:

**Anesthesiology** The official journal of American Society of Anesthesiologists is committed to publishing and disseminating the highest quality work to inform daily clinical practice and transform the practice of medicine in our specialty.

**Annals of Surgery** The world’s most highly referenced surgery journal, providing the international medical community with information on significant contributions to the advancement of surgical science and practice.

**Circulation** This official journal of the American Heart Association publishes the most authoritative articles and details the implications for application in your daily practice to improve patient outcomes.

**Neurology®** The official journal of the American Academy of Neurology features best practices, evidence-based research and articles on topics that directly affect practicing neurologists.

**Obstetrics & Gynecology** Popularly known as “The Green Journal,” Obstetrics & Gynecology has been published since 1953; the goal of the journal is to promote excellence in the clinical practice of obstetrics and gynecology and closely related fields.

**Plastic & Reconstructive Surgery** For more than 60 years Plastic and Reconstructive Surgery®, as the official journal of the American Society of Plastic Surgeons, has been the one consistently excellent reference for every specialist who uses plastic surgery techniques or works in conjunction with a plastic surgeon.

**The Journal of Bone & Joint Surgery** The Journal of Bone & Joint Surgery is the flagship publication within the JBJS product line. For 126 years, this journal has been the gold-standard in peer-reviewed scientific research in the worldwide field of orthopaedics.

**PAIN®** This journal is the official publication of the International Association for the Study of Pain and publishes original research on the nature, mechanisms and treatment of pain. The journal provides a forum for the dissemination of research in the basic and clinical sciences of multidisciplinary interest.

### LWW Total Access Collection

**Exclusive, cost-effective access to nearly 300 Journals in medicine and healthcare**

This prestigious collection, designed for institutions with more intensive medical information needs, includes just about every one of Lippincott Williams & Wilkins’ highly respected titles, from the essential core journals to specialised resources in areas such as nursing and bioscience, to help round up your knowledge base. With the LWW Total Access Collection you get virtually all of LWW’s electronic journal content - at an affordable price.

- This collection has top journals, ranked by Impact Factor, in 15 different subject categories*
- *Circulation, Annals of Surgery, and Anesthesiology*, and Journal of Bone and Joint Surgery are ranked #1 by Impact Factor in their subject categories*
- Many journals are “official” titles of prestigious societies and associations
- No journals in the collection are under any embargoes.
In the LWW Total Access Collection:

**Dermatologic Surgery** Publishing the most clinically comprehensive and up-to-date information in its field. This unique monthly journal provides today’s most expansive and in-depth coverage of cosmetic and reconstructive skin surgery and skin cancer through peer-reviewed original articles, extensive illustrations, case reports, ongoing features, literature reviews and correspondence.

**Journal of the American Academy of Orthopaedic Surgeons (JAAOS)** The #1 clinical review journal of musculoskeletal education in the world, and the official clinical orthopaedic review journal of the American Academy of Orthopaedic Surgeons. The peer-reviewed articles critically evaluate and synthesize current information regarding the diagnosis and management of musculoskeletal conditions.

**Journal of Hypertension** Official Journal of the International Society of Hypertension and European Society of Hypertension. The journal consistently attracts the most important and highly innovative papers from the current research; our commitment to rapid publication ensures that these are published in the fastest time possible.

**Spine** An international, peer-reviewed, bi-weekly periodical that considers for publication original articles in the field of Spine. It is the leading subspecialty journal for the treatment of spinal disorders.

**American Journal of Nursing** The oldest and most honored broad-based nursing journal in the world. Peer reviewed and evidence-based, it is considered the profession’s premier journal.

LWW Current Opinion Journal Series

24 discipline-specific titles presenting reviews of the latest clinical research developments

The Current Opinion journals from Lippincott Williams and Wilkins are regarded as the most efficient and authoritative way to keep you informed of all major developments in clinical medicine. The international editorial boards search across millions of journal articles published worldwide each year, presenting concise and reliable analysis of the most significant research advances and papers of interest that impact general practice.

In the Current Opinion Collection:
- Current Opinion in Infectious Diseases
- Current Opinion in Gastroenterology
- Current Opinion in Lipidology
- Current Opinion in Cardiology
- Current Opinion in Oncology

LWW Nursing Journals

Over 90 journals covering a range of nursing specialties.

As nurses’ information needs to develop with their growing role in modern healthcare, access to the right full-text material is increasingly vital to their work and career development. Ovid ensures that your team stays current with continuing education resources, clinical and patient education materials, and the latest approaches to evidence-based care.

LWW Nursing Journals include:

Cancer Nursing: An International Journal for Cancer Care
Offers unparalleled international coverage of cancer care delivery practices worldwide, as well as groundbreaking research findings and their practical applications.

Nursing Research
The most prestigious and sought after research journal in the field, publishing articles on research techniques, quantitative and qualitative studies, and state-of-the-art methodology, including information not yet found in textbooks.

AJN: American Journal of Nursing
Offers comprehensive and in-depth guidance to help nurses stay current on clinical advances and professional developments. Issues feature practical, hands-on clinical articles on essentials topic, vital information on drugs, plus self-study articles of ANCC- approved CE activities.

Advanced Critical Care
A peer-reviewed publication of in-depth articles intended for experienced critical care and acute care clinicians at the bedside, advanced practice nurses, and clinical and academic educators. Each issue includes a topic-based symposium, feature articles, and columns of interest to critical care and progressive care clinicians.
High quality scholarly resources in a range of disciplines

Books@Ovid offer a growing list of more than 4,000 current online book editions from the world’s most prestigious scholarly publishers, including one of the largest selection of core clinical ebooks.

**Why Books and Book Collections on Ovid?**

- Natural language searching makes it easy to find what you are looking for without complex search terminology
- Relevancy ranking in search saves time by delivering the best possible results
- Seamless linking to full-text journals and databases and even more resources outside of the Ovid environment
- Flexible search and browse options.
- Books are available in the Books@Ovid eReader using the ePub format
- Download and save chapters as PDFs

**Lippincott Book Collections**

**Cost effective collections of high-quality books from one of the world’s leading medical publishers.**

Choosing the right set of books for your institution can be difficult – selecting one title over another takes time along with budget concerns. That is why collections are a quick, cost effective method of expanding your book offerings.

Ovid has a wide variety of collections featuring premier titles published by Lippincott. Whether you are interested in a small set of books based on a specific specialty, medium-sized specialty or even more comprehensive collections, you can choose what fits in with your needs and budget.

Find out more about additional leading books from Elsevier, Oxford University Press, Cambridge University Press and more.

The New England Journal of Medicine

Dedicated to bringing the best research and key information to clinical practice, the New England Journal of Medicine (NEJM) is known as a career companion for physicians – keeping them informed on developments. NEJM offers landmark research, clinical insights, and medical breakthroughs in over 125 areas. The New England Journal of Medicine is the most widely read and influential medical journal in the world.

Find out more about additional leading journals from: Wiley, Elsevier, BMA and others.
Must-Have, Trusted Health Science Education Resources for Learning, Teaching and Practice - Available Online and On Mobile Devices

These leading Lippincott Williams & Wilkins (LWW) eLearning Resources provide your institution the essential resources in health science education covering gross anatomy, physical examination techniques, foundational medical and pharmacy information and more.

Acland’s Video Atlas of Human Anatomy
3D Rotational Gross Anatomy Videos Featuring Real Cadaver Specimens

Acland’s Video Atlas of Human Anatomy is the optimal anatomical learning solution. Watch and listen to world-renowned anatomist Dr. Robert Acland - Professor Emeritus of Surgery, University of Louisville School of Medicine - as he shows and explains anatomical movement within each region of the body - covering bones, muscles, tendons, organs and more.

- Support the teaching and learning of anatomy with more than 300 narrated videos; coverage includes upper extremity, lower extremity, trunk, head & neck and internal organs; plus, ground-breaking inner ear content
- Allow students independent, frequent viewing for review, self-assessment and practical exam preparation - as well as track their performance using interactive Q&A and timed or review quizzes
- Demonstrate muscle function in 3D to colleagues, staff, and patients
- Browse video clips, share with colleagues and add to a “favorites” area for quick reference.

Bates’ Visual Guide to Physical Examination
Head-to-Toe and Systems-Based Physical Assessment and Clinical Reasoning Skills Videos

Bates’ Visual Guide to Physical Examination delivers new clinical skills videos featuring head-to-toe and systems-based physical examination techniques, as well as OSCE clinical reasoning modules. This online guide maintains the evidence-based origins of the text and provides careful attention to clinical accuracy, and to the range of patient types profiled in the series.

- Support teaching and learning objectives with hours of narrated and closed-captioned videos
- Prepare students for the patient encounter and board exams
- Allow students independent, frequent viewing and testing of their clinical reasoning skills
- Provide a resource for practitioners to review and refresh their understanding of examination techniques
- Create direct paths to videos from library catalog or course syllabus; download PDF transcripts for use in teaching guides.
LWW Health Library
Online Portal for Educational and Clinical Content

LWW Health Library delivers trusted health science education and clinical content directly to students, faculty, residents and staff through a single portal – complete with interactivity and multimedia ancillaries. In addition to medical schools and hospitals, these resources are a must-have for related educational and residency programs including surgical services, physical therapy, osteopathic medicine and pharmaceutical science.

By providing online access to essentials texts, procedure videos, real-life case studies and quiz banks, you will feel assured to have the resources you need to effectively support your students and residents foundational learning and clinical practice.

LWW Health Library Collections available:
- Oncology
- Physical Therapy Speech, Language, and Hearing
- Occupational Therapy
- Anesthesiology
- Medical Education
- Orthopedic Medicine
- Pharmacy
- Surgery
- Emergency Medicine
- Physical Therapy
- Osteopathic Medicine
- Clerkship/Clinical Rotations

5-Minute Consult
Point-of-Care Clinical Decision Support Tool or Physicians and Healthcare Professionals

5-Minute Consult, a leading point-of-care solution, offers online access to synthesized, clinical content and tools that will enable healthcare providers to make quick and informed decisions at the patient’s bedside.

Based off the best-selling clinical content in family medicine for over 20 years, this portal is the fastest way to obtain the most likely diagnosis, treatment and management of thousands of diseases. Now this trusted guide for physicians, physician assistants, nurse practitioners and residents is accessible online for decision support.

Stedman’s Online
The Definitive Resource for Medical Terminology

For more than 100 years, Stedman’s has been defining medicine for healthcare professionals. Stedman’s Online offers users online access to the most complete resource of medical terms, definitions, abbreviations and symbols.

By offering this resource to your healthcare staff, you will be able to standardize record processing and comply with healthcare regulations – helping to increase the accuracy of documentation, limit errors, improve patient safety and ensure quality of care. In addition to healthcare academic and clinical settings, Stedman’s would be a valuable reference for insurance companies and law firms investigating insurance claims and malpractice lawsuits.
Premium Databases from the world’s leading publishers

At Ovid, we offer more than 100 core and niche databases – from MEDLINE to PsycINFO and Embase to AMED, HaPI, and Maternity and Infant Care – to support the breadth of learning, research and practice needs in a wide range of disciplines, from clinical medicine and pharmacology to engineering and religious studies.

The powerful combination of Ovid’s rich database implementation with Ovid’s advanced search features, natural language and processing, sophisticated linking technology, and customisable display options offer a unique, integrated database solution ideal for all users at an institution.

Why Databases@Ovid?

- Proprietary precision mapping technology easily ‘maps’ a search term to the controlled vocabulary of each database
- Multi-file search across databases, journals and books simultaneously
- Automatic elimination of duplicate results
- Customisable links to all available full-text holdings
- Seamless linking to relevant free full-text and internet resources.

Amirsys Reference Centers™

Search Thousands of High-Quality Images, Classic Diagnoses and Clinical Information All in One Place

Regardless of their specialty, physicians, nurses, residents, researchers, students and educators must be adept at understanding and reviewing images. OvidSP offers seamless, one-click access to three image-rich databases:

- **Amirsys Anatomy Reference Center**
- **Amirsys Imaging Reference Center**
- **Amirsys Pathology Reference Center**

Each features a combination of thousands of images, common clinical diagnoses and important radiology, anatomy or pathology topics provided by experts. Not just for practising clinicians or specialists in radiology, pathology or anatomy, they’re perfect for referring physicians, nurses, residents, educators, and any student in any medical field at any stage in their training.

Discover continuously updated information and imagery authored and selected by renowned experts in anatomy, pathology and radiology. Search or browse topics by diagnosis, organ, organ system, medical specialty, or keyword.

Topics are brief and bulleted and follow a consistent format for easy review and interpretation. Download, print and share PowerPoint-friendly images and topics for clinical or educational use.
Visible Body®
Complete Online and Mobile 3D Anatomy Education Solution

Visible Body is a suite of online programs that cover anatomy, physiology, muscles, the skeleton and the circulatory system through interactive 3D models, animations, quizzes and more.

Whether you support faculty, students, clinicians or medical device R&D, Ovid offers flexible subscription and purchasing options to allow you to customize to meet your specific needs. Plus, each program is also offered for iPad® and/or Android® * to support users who need offline and offsite access to meet their busy schedules, study habits and device preference.

**Available Modules:**

---

**Essential Anatomy & Physiology Resources**

**Human Anatomy Atlas**
This award-winning human anatomy general reference is a 3D visualization and learning tool used to interact and explore the systems of the human body.

**Physiology Animations**
This library of animations is a comprehensive collection of nearly 70 stunning, high-quality videos that illustrate and animate the core physiological processes of the human body.

---

**Anatomy For the Classroom**

**Anatomy & Physiology**
This award-winning interactive teaching program provides all of the online, supplemental material needed to support faculty and students for a 2-semester anatomy and physiology course at a university, health science school, or community college.

**Anatomy at Work**

**Anatomy & Function**
Developed with the busy clinician in mind, this program provides physicians, nurses and other healthcare professionals access to animations, illustrations, and 3D models of the human body and common functions that can be used for visual reference and patient education while on the job.

---

**Premium Specialty Modules**

Take a comprehensive walk through various complicated systems of the body with these specialty modules. The programs use 3D models and interactive presentations, quick movies, and visually stunning images to give users a more in-depth look inside for learning and reference.

- Heart & Circulatory Premium
- Muscle Premium
- Skeleton Premium

- Peel away structures and layers from head to toe, rotate anatomical models, and dive deep into both systemic and regional anatomy
- Complement textbook and classroom-based learning with interactive resources that support learning objectives and measure learner competency
- Coverage ranges from complete systemic and regional anatomy to specialty modules, perfect for any curriculum type
- Access a variety of content types including animations, illustrations, definitions, audio pronunciations, quizzes and more
- Produced by awarding-winning team of medical illustrators and biomedical visualization experts belonging to the Association of Medical Illustrators
- Extend access to valuable study tools and custom features, off-campus and no need for an internet connection.
Evidence-Based Practice Resources:

Evidence-Based Practice (EBP) aims to deliver patient care using best practice guidelines as well as ensuring that healthcare resources are used efficiently and effectively where possible. At Ovid, you can access the best available evidence information from an international community and tools for patient engagement all in one place from leading resources such as Evidence-Based Medicine Reviews (EBMR), Joanna Briggs Institute (JBI), Natural Medicines and more.

Joanna Briggs Institute (JBI)
Comprehensive suite of evidence-rich information and tools to help implement evidence into practice

JBI’s evidence-based practice model is considered a benchmark in the healthcare industry encouraging healthcare professionals to implement an effective evidence-based practice program to provide the best possible patient care.

- High-quality publications to enhance the capability of your staff to locate current evidence to inform their practice
- Access summarised research in a format that is easy to locate, understand and distribute
- Contains a unique suite of information such as Evidence Summaries, Evidence-Based Recommended Practices, Systematic Reviews and more
- Tools to support critical appraisal and systematic reviews
- JBI subject-area nodes available in the following areas: Aged Care, Chronic Disease, Emergency and Trauma, General Medicine, Midwifery, Pediatrics, Rehabilitation, Surgical Services and more
- Other offerings from JBI include the Lippincott/JBI Synthesis Science in Healthcare Online Book Series, an extensive book collection that enables healthcare professionals to understand the JBI model of evidence-based healthcare and International Journal of Evidence-Based Healthcare, publishing original scholarly work including evidence in health care reports, systematic reviews and scholarly papers.

Evidence-Based Medicine Reviews (EBMR)
A Definitive Resource for Essential Evidence-Based Medicine Content

Evidence-Based Medicine Reviews (EBMR) support the international movement towards integrating EBM into clinical practice by bringing “best evidence” from medical research to the bedside, clinic, and community. Healthcare professionals around the world look to Evidence-Based Medicine (EBM) as the new standard for clinical care.

- Combines 7 of the most trusted evidence resources into a single, fully-searchable database
- Content from the leading producers of evidence including the Cochrane Collaboration published by Wiley, as well as the American College of Physicians Journal Club
- Access to Article, Methodology, Systematic and Technology Reviews.

Natural Medicines
Evidence-based reviews of complementary and alternative medicine

The Natural Medicines Database is ideal for hospitals, universities, corporations, manufacturers, retail pharmacies, organizations and private professional practices.

- Sections include safety, efficacy, adverse effects, precautions, contraindications, pregnancy and lactation data, overdosing, mega-dosing, and potential interactions with foods, herbs, supplements, drugs and diagnostic tests/labs
- Evidence-based complementary medicine information covering herbs, supplements, therapeutic modalities, and special diets
- Supports healthcare institutions offering integrative care towards total health and wellness
- Offers potential adverse effects and interactions with prescription medications.
Northern Light

This grey literature database offers over 2 million abstracts and posters from medical and life sciences conferences across the globe. Ideal for academic institutions, research hospitals, and pharmaceutical and medical device companies, Northern Light offers users access to information, often several years before it is published in industry or academic journals - returning a complete set of relevant results to support their research, trials, or systematic reviews.

Conference abstracts cover:
- Must-have resource for systematic reviews
- Over 25,000 abstracts added every month
- Quick, easy access to over 100,000 conference posters with tables, graphs, and images
- Real-time access to conference abstract - searchable within 3 weeks or less from being posted on conference sites
- Coverage includes diseases, treatments, drugs, clinical trial phases, medical devices, and more
- 100% copyright compliant - search confidently across all content

Embase

Embase is ideal for anyone in the clinical, corporate, or academic world—from physicians and drug developers to medical device manufacturers and medical students—looking for current, relevant, and practical information in their field.

Ovid, the world’s leading aggregated solution of bibliographic and full-text content in medicine and science, offers users easy, fully integrated access to four distinct Embase products: current, daily updated Embase; the Embase Classic archive; Embase Daily Alerts and Embase Weekly Alerts. Combined with the extensive Emtree thesaurus, Ovid’s robust search technology and time-saving workflow tools support fast, accurate research retrieval and management.

The Embase database is the most trusted source of global, evidence-based pharmacological and biomedical research. Underpinned by the Emtree thesaurus which provides comprehensive indexing and allows for precise biomedical and life science information retrieval.

Embase features:
- Disciplines and fields covered include: Pharmacology and Pharmaceutical Science; Pharmacoeconomics; Toxicology; Evidence-Based Medicine; Biotechnology and Bioengineering; Medical Devices; Drug Research and Development; Clinical Investigations; Public, Occupational, and Environmental Health Research and Policy Management; and more
- Nearly 28 million bibliographic records dating back to 1974
- All MEDLINE® citations
- Records indexed from over 8,500 journals - over 3,000 of which are unique to Embase
- International coverage - records are drawn from sources published in over 90 countries
- Constant updates - over 1 million citations and abstracts are added annually
- Fully-indexed citations, indexing terms, and codes
- Author-written abstracts for roughly 80% of all citations
- Drug indexing by trade name, manufacturer name, clinical trials, and more
- Clinical Queries from McMaster University—Customized for Ovid!
Databases

BIOSIS®

Regarded as one of the world’s leading sources of life sciences content, BIOSIS® Suite, is unmatched in comprehensive information. Suite of BIOSIS® Products Include:

BIOSIS Previews®
- Journal content from Biological Abstracts® along with non-journal content from Biological Abstracts/RRM®
- Comprehensive coverage on virtually every life sciences discipline
- Coverage spans 1926 to the present
- Critical research on current trends and developments

Biological Abstracts®
- Take advantage of the high standards of journal evaluation process, only life science, peer-reviewed original research journals are indexed
- Specialized indexing (MeSH disease terms, CAS Registry, etc)
- Available with over 11.3 million records back to 1926

Biological Abstracts/RRM®
- Discover new applications, techniques and laboratory methods discussed at meetings, months before they are published in journals.
- Track the competition
- References over 1,500 meetings, 29,000 patents, 9,000 book reviews and over 24,000 references to review articles

Zoological Record
- Determine the first appearance of an animal in published literature
- Access research in significant fields like biodiversity, ecology and wildlife conservation from the world’s leading source of zoological literature
- Check for new species descriptions
- Get the most accurate results through specialized indexing from the world’s unofficial register of animal names

Derwent Drug File

Derwent Drug File is the definitive source for information on all aspects of drug development, synthesis, evaluation, manufacture and use. It provides references from the worldwide pharmaceutical literature going back to 1964.

The highly focused coverage of Derwent Drug File ensures a strong pharmaceutical focus, allowing for precise searching of new developments in the pharmaceutical industry. An estimated 20 percent of the data in Drug File is not available in any other drug database.

- Online file contains over 1.5 million records from 1964 to present
- Unique indexing enables users to quickly find relevant information
- Worldwide literature compiled from 1,200 international journals and conferences for unrivaled coverage.
Open Access Content from Medknow

Available through OvidOpenAccess on Ovid, Medknow provides immediate unrestricted access internationally to peer-reviewed journals.

In partnership with more than 335 notable medical societies and associations, Medknow has made over 375 science, technical, and medical journals available for global consumption.

Selected Medknow journals can be searched alongside subscribed content – offering users the ability to search across all content in a single query.

Trust Medknow

- A global open access publishing services provider
- Publisher of over 380 STM journals on an open access platform
- Partnerships with 340 medical societies
- Performance strength with an estimated 4 million article downloads monthly
- Supports medical societies and associations across Asia, the Middle East, Europe and Africa, among other regions.

Why Medknow?

- Locally developed content, accessible for global consumption
- Uncover research in a variety of topics from alternative medicine to engineering to radiology
- Search across Ovid subscriptions and open access content all in a single interface
- Access hundreds of non-embargoed journals
- Use Ovid’s unique research productivity tools such as adding to My Projects, exporting, printing and much more.

Key subject areas:

- Alternative Medicine
- Business Ethics
- Conservation
- Dentistry
- Engineering
- Environment
- Ethics
- Health
- General Medicine
- Microbiology
- Nursing
- Pharmacy
- Pharmacology
- Physics
- Psychiatry
- Psychology
- Radiology
- Science
