

Pharmaceutical Science Journals from Elsevier

Highly-Ranked Titles in Toxicology,
Biochemistry, Biopharmaceutics, and More

- Develop thorough comprehension of the science behind drug discovery, development, and therapy
- Access current and emerging research, review articles, and pre-clinical and clinical trial information
- Make sure you and your colleagues stay ahead of the competition, innovate, and anticipate trends in development and discovery
- Help students understand core principles and practices in pharmacology and pharmaceutical science
- Help your institution save with cost-effective, collection access

Current, Unembargoed Content for Information Specialists, Researchers, Scientists, Pharmacists, Clinicians, and Students

Available now through OvidSP—the world's leading aggregator of medical and bioscience resources—these offerings include a targeted selection of current, highly-ranked journals from Elsevier, one of the leaders in pharmaceutical science publishing.

Whether your users are looking for core principles and practices, or are responsible for product innovation and development, they need to understand the latest drug therapies. With Elsevier journals on Ovid, they will find the critical biological underpinnings in toxicology, biopharmaceutics, biochemistry, and other topics they need to develop the knowledge and skills for success.

Why Elsevier Pharmaceutical Science Journals on OvidSP?

- Every journal has an Impact Factor; 3 of the journals are ranked in the top 10 out of 261 titles in the ISI's Pharmacology & Pharmacy category*
- Affiliated with some of the world's leading international societies, including the International Society for Antiviral Research, International Association for Pharmaceutical Technology, International Society on Toxinology, and others
- Journals are available individually or as part of cost-effective collections
- No journals are embargoed—you always have access to the most current issue
- Search all journals—and all OvidSP subscribed content—with just a single search query

See page 2 for the list of titles in each collection.

OvidSP

Transforming Research into Results.

OvidSP is your complete online research solution, offering a single online destination where you can search, discover, and manage the critical information you need to streamline your research productivity and your work.

- Work the way you want to work with a variety of search modes and customizable work productivity and content alerting tools
- Save and manage critical research findings and documents in a dedicated work area—**My Projects**
- Extend your Ovid research experience beyond OvidSP with the **Ovid Toolbar**
- Search all Ovid resources—books, journals, and databases—simultaneously with just one query
