LWW Pharmacy Book Collections

Over 30 Textbooks from Lippincott Williams & Wilkins (LWW) – for Students and Professional Pharmacists

- Get the most recognized content in the field from the world’s most trusted medical and health science information aggregator
- Guide pharmacy professionals from their PharmD years to preparing for NAPLEX (North American Pharmacist Licensure Examination) and throughout their clinical careers
- Ensure students have the foundational knowledge they need to build their academic and professional career
- Provide access to learning exercises, practice study problems and case studies with questions and answers
- Offer instructor resources for use in course materials and presentations
- Provide students with a case-based learning methodology, designed to help them better relate to content and recall information
- Give practicing pharmacists—in a hospital or retail setting—key clinical decision support tools

Available as annual subscriptions via OvidSP, the Clinical Pharmacy Collection, Cornerstone Pharmaceutical Sciences Collection and Integrated Pharmacy Collection are perfect for not only current pharmacy students, but also practicing pharmacists who need handy access to quick-reference materials.

Each book is published by Lippincott Williams & Wilkins (LWW), renowned throughout the world for its pioneering original research in medicine, nursing and health sciences. Key books include 5-Minute Clinical Consult 2014 and others in the 5-Minute series, Ansel’s Pharmaceutical Dosage Forms, Koda-Kimble & Young’s Applied Therapeutics and A Practical Guide to Contemporary Practice.

Why Get LWW Pharmacy Book Collections through Ovid?

- Convenient packages of authoritative resources for pharmacy students as well as practicing pharmacists
- 12 titles are included in the Basic Resources for Pharmacy Education guide, developed by the Library & Information Science Section of the American Association of Colleges of Pharmacy (AACP)
- Video and audio resources—Multimedia on Ovid—give pharmacists hands-on reference and refresher content
- All books are simultaneously searchable with your other institutional journal, book and database holdings using just a single search query
- Workflow tools such as search results annotations, sharing tools and export options
- Books@Ovid’s time-saving search and browse capabilities, expandable table of contents, and—depending upon the specific resource—an alphabetical drug index with links to the text

See page 2 for a list of the titles in each of the three collections.
