단행본 이북 소식

Ovid에서 제공되는 새로운 이북

An extensively updated new edition of the highly acclaimed guide to treatment of bipolar disorder, incorporating the latest research on psychosocial treatments and clear medication management guidelines.

This multiaxial diagnostic and classification system based on psychodynamic principles has now been adapted for children and adolescents by combining psychodynamic, developmental, and clinical psychiatric perspectives.

A unique and comprehensive handbook presenting the state of the art in suicide bereavement support.

BEHAVIORAL SCIENCES: PSYCHOLOGY Mindfulness; Witkiewitz, Katie; Roos, Corey R.; Colgan, Dana Dharmakaya; Bowen, Sarah; Hogrefe Publishing, 1st Edition (2017); 80 pages; ISBN: 978-0-889-37414-0

This clear and concise book provides practical, evidence-based guidance on the use of mindfulness in treatment: its mechanism of action, the disorders for which there is empirical evidence of efficacy, mindfulness practices and techniques, and how to integrate them into clinical practice.

The carefully selected chapters provide food for thought to practitioners, researchers, students, and all those who come into contact with the tragedy of suicide, with the hope of stimulating new ideas and interventions in the difficult fight against suicidal behaviors.

The new edition of this highly acclaimed volume provides a fully updated and comprehensive account of the psychopathology, clinical assessment, and treatment of schizophrenia spectrum disorders.

Step-by-step guidance for parents and others on how to help children and adolescents who soil themselves, using techniques shown to be effective in scientific studies.

Step-by-step guidance for parents and others on how to help children and adolescents who wet themselves, using techniques shown to be effective in scientific studies.
