Content and tools that will help your institution implement evidence-based practice

- Systematic reviews, recommended practices, evidence summaries, and more
- Evidence to inform clinical practice—derived from JBI’s Global Collaborating Centers
- Summarized research in a format that is easy to locate, understand and distribute
- Tools designed to help EBP policy and practice manual development based on the best available evidence
- Resources designed to help assess the quality of research

Healthcare professionals and institutions strive to provide the highest quality care to their patients based on the latest evidence from research, healthcare professional expertise, and patient preference.

Help them achieve this goal with new resources from the Joanna Briggs Institute (JBI)—one of the world’s leading evidence-based practice (EBP) organizations—now on Ovid!

JBI’s evidence-based practice model is considered a benchmark in the healthcare industry—encouraging healthcare professionals to implement an effective evidence-based practice program to provide the best possible patient care.

Why JBI EBP Resources on Ovid?

- Evidence-rich content and tools from the leading evidence-based practice organization - only available on Ovid
- Access summarized research in a format that is easy to locate, understand and distribute to your staff
- High quality publications to enhance the capacity of your staff to locate current evidence to inform their practice
- Provide your faculty with a database of procedures, based on the best available evidence
- Develop critical appraisal skills using a tool to guide you through the steps of critical appraisal
- Improve patient outcomes by extending the reach of clinical practice guidelines tailored for your institution or community
